Trident Infosol Marks a New Milestone with Its New Engineering facility, Advancing Customer Success Through Greater Engineering Capabilities

Bangalore, India, Wednesday August 5, 2026

Marking more than **25 years of engineering excellence**, Trident Infosol today announced its relocation to a significantly larger engineering and manufacturing facility, representing an important milestone in the company's continued growth and long-term commitment to customer success.

The new 80,000+ square-foot facility, doubling the company's operational footprint, reflects Trident Infosol's continued investment in future-ready capabilities. Designed to support next-generation engineering programs and transformational technologies, it strengthens manufacturing, integration, and testing while enabling faster execution, closer collaboration, and seamless delivery throughout the product development lifecycle.

This milestone represents more than just a change in location—it reflects Trident Infosol's continued investment in its people, infrastructure, and capabilities to support the next phase of growth. As we begin this exciting new journey, **We look forward to welcoming our customers, partners, and collaborators to be a part of our next chapter at Trident Infosol.**

About Trident Infosol Pvt. Ltd.

Established in 2000, Trident Infosol is a trusted engineering solutions company with 25+ years of engineering excellence. An AS9100D and CEMILAC-certified organization, the company delivers end-to-end embedded hardware and software solutions for mission-critical applications across aerospace, defense, transportation, and industrial automation. From concept and design to manufacturing, integration, testing, and lifecycle support, Trident Infosol partners with customers to solve complex engineering challenges with precision and reliability. Trusted by customers in India and around the world, the company continues to invest in engineering innovation, advanced infrastructure, and world-class capabilities to deliver future-ready solutions.
